

Tips for safe riding and scooting

A checklist for safe riding and scooting:

- 🚲 Always wear an approved helmet and make sure it is securely fitted and fastened.
- 🚲 Make sure your bike or scooter is the right size for you, and in good working order.
- 🚲 When riding on a pathway, keep left and give way to pedestrians.
- 🚲 If you ride on the road, keep left and ride in the same direction as the traffic.
- 🚲 Before riding across a side street or parking lot, stop, look right, look left and look right again and only cross when it is safe to do so.
- 🚲 Obey all signs and traffic signals.
- 🚲 At a designated crossing area, such as a school crossing or zebra crossing, please stop, dismount your bike or scooter, look right, look left and look right again before crossing. Remember to always stay left when crossing and give way to pedestrians.
- 🚲 Slow down at driveways and watch for cars that may be entering or leaving.
- 🚲 Wear bright clothing to make you more visible for people in cars.
- 🚲 Avoid using headphones and listening to music while you are riding or scooting.
